

Nomination Form
**2023 Professional Applicator
of the Year**

Sponsored by the South Carolina Fertilizer and Agrichemical Association (SCFAA).

Custom applicators in South Carolina spend hundreds of hours in the field every year, applying fertilizer and crop protection products on thousands of crop acres. This award showcases the hard work professional applicators put into caring for crops and customers, as well as their involvement in their communities. We are proud to recognize these outstanding people and feel they deserve all the thanks they can get.

There is no limit to the number of nominations a nominator may submit, however, a nominator may only submit one nomination for any one candidate. A nominator may not submit a nomination for himself/herself. Nominators must be members or employees of companies that are members of the SCFAA. Candidates must be an ag retailer operator that has the primary job of operating application equipment. **DEADLINE June 7, 2023.** See scfaa.org for more information as well as terms and conditions.
